### 7. Declared performances

Parameters	Performances		
	AZL	AZN	AZW
Fan sizes [mm]	ø250 to ø1000	ø250 to ø2000	ø500 to ø2000
Airflow rates [m <sup>3</sup> /s]	0.1 to 33	0.1 to 125	
Total pressures	up to 3300	up to 3400	
Optimal fan speeds [RPM] *	1000 to 4919	600 to 4919	1130 to 3660
Fan efficiencies	up to 92%		
Max. motor-consumed power [kW]	0.37 to 44	0.37 to 220	0.75 to 220
Motor efficiency classes	IE2, IE3, IE4, or IE5		
Min. / max. sound power level [dB(A)] **	50 / 115	50 / 120	50 / 120
Operational temperature range [°C]	-20 to +50		

The table shows the combined performances for each fan type, i.e. a specific fan configuration has the optimum operation point within these ranges and cannot operate within the entire performance range. Refer to the product catalogues and AirBox calculations for specific data.

\* Optimal fan speeds are max. allowable speeds at 20 °C for frequency-regulated operation and depend on fan specifications.

\*\* Sound power levels are for unattenuated basic configurations without silencer accessories.

### 8. Appropriate technical documentation and/or specific technical documentation

#### EU

Ecodesign regulation 327/2011  
 EMC directive 2014/30/EU  
 Low voltage directive 2014/35/EU  
 Machinery directive 2006/42/EU

#### UK regulations

Ecodesign for ErP 2010/2617  
 Electrical Equipment (Safety) 2016/1101  
 EMC 2016  
 Energy Information 2011/1524  
 Supply of Machinery (safety) 2008

This declaration bases on Novenco Building & Industry's design specifications for and tests of the ZerAx family of fans controlled with frequency converters (VFDs) at high and low speeds. Hence, the fans are approved for running with variable speeds.

We direct attention to the use of certified equipment only, which includes the use of VFDs. Use of non-certified

equipment voids the warranty. Refer to the Novenco product documentation and sales support for recommendations.

The performances of the products identified above conform with the set of declared performances. This declaration of performance is in accordance with the EU Construction Products Regulation 305/2011 and the amendment 574/2014, under the sole responsibility of the manufacturer identified above. The products in the declaration comply with the EU Ecodesign regulations 327/2011 and 2019/1781.

Signed for and on behalf of the manufacturer by

Peter Holt  
Technical director  
Novenco Building & Industry A/S  
Naestved, Denmark, 12<sup>th</sup> November 2024
